Copy 3 of 5

26 January 1959

MEMORANDUM FOR: Deputy Director, DPD-DD/P

SUBJECT : Recommendations Resulting from Meeting of Colonel  
Burke with [ ] of Pratt & Whitney  
on Growth of J-57

REFERENCE : Memorandum for DD/P, dated 21 January 1959, from  
Deputy Director, DPD-DD/P, same subject (CHAL-  
0533)

I have not formally concurred in the referenced document because as I explained to you on the phone, I believe it has been overtaken by events. The proposal to use the J-75 in the U-2 is by all odds the most promising product improvement possibly that has yet appeared. I hope that Gene Kiefer with Leo Geary's help will pursue this with all possible speed.
